

# Master Licence Checklist

This is a checklist of key deal points and issues in a master licence. It is not exhaustive. It is not a substitute for legal advice. Every deal is different in some way. Almost all deals can be improved by professional analysis and negotiation. Master Licence agreements have significant implications on an artist's and label's exploitation of masters. You should get competent and specialised legal advice on the subject matter and terms of any agreement before you sign anything. However, this checklist sets out the details and issues you should be on the look-out for.
